

THE 3RD BI-ANNUAL BONE MARROW TRANSPLANT STUDY DAY

Reviewing the management of BMT complications

Wednesday 28th March | 9am-4pm | 4
Novotel Leeds, Whitehall quay, Leeds,
LS1 4HR

The day will cover the key complications following BMT including Veno-occlusive disease, Graft-vs.-Host disease and post-transplant infections. This day will also look at the new novel therapies using CAR-T cells.

The day aims to:

- Inspire delegates to act as clinical champions, raising the expertise of managing post-transplant complications in their working environment.
- Increase understanding of the impact of post-transplant complications and how to support patients & families during this period of uncertainty.
- Gain understanding of how to implement individualised care planning including shared decision making in clinical practice.

On the day, the programme will be a mixture of locally and nationally based speakers including **Dr Maria Gilleece, Dr Christopher Parrish, Dr Suzy O'Neill, Suzanne Liebersbach, Dr Beki James and Dr Reuben Benjamin**

This conference is aimed at: **Ward based nurses, Day case unit staff, Clinical Nurse Specialists, Paediatric Nurse, Dieticians, Pharmacists, Junior Doctors, ICU, Medical Staff**
