

For clinical academics, researchers, public health and social care practitioners

Fellowship Application Day 2025

A free workshop for those thinking of applying for an NIHR Doctoral or Post-doctoral Fellowship

Applying for a research fellowship is competitive. This event gives attendees the information they need to improve the quality of their application, making sure it is focused on what NIHR and their reviewers are looking for.

The Fellowship Application Day aims to prepare applicants who are intending to apply in the next year to the new NIHR research career development funding programmes, specifically the Doctoral and Postdoctoral Awards. This funding replaces the former Doctoral and Advanced Fellowship Programme, the HEE-NIHR Integrated Clinical and Practitioner Academic Programme and the NIHR Local Authority Academic Fellowship Programme.

Topics include:

- What makes a credible applicant?
- What makes a good training and development plan?
- What makes a good host environment?
- What makes a good fellowship project?
- How to build a good supervisory team

... and many more!

You will hear from the NIHR Academy, and there will be plenty of time for Q&A with successful applicants, those who sit on selection committees and RSS advisers.

17th September

9:15-15:00

Online
