CATALYSING CHANGE

British Society for Haematology

Influencing and improving the external environment so haematology can thrive, enabling innovation, advancing best practice and delivering better health outcomes

Lead the Voice

Equip members to advocate for best practice

Anticipate Change

Horizon-scan and provide tailored guidance

Influence with Evidence

Combine data, insight and lived experience

Build Champions

Grow networks that amplify our impact

Building on our foundations

We will continue to advocate for an "Expert Team" workforce model, monitor and respond to workforce developments across all four nations, contribute to oversight groups and partnerships, and make use of our influential research, including on Liaison Haematology

BJHaem BRITISH JOURNAL OF HAEMATOLOGY

WILEY

strengthening our partnership with Wiley to maximise the value of publishing for our members

Professional Standards

Supporting change by:

- defining best practice
- supporting service improvement

Developing a broader portfolio of professional standards that supports excellence across all aspects of haematology practice beyond clinical guidelines

Increasing collaborations across guidelines

UKHCDO · UK Myeloma Society · BVHG British Viral Hepatitis Group · eha

Transforming the member experience through a new website and member portal **Launching in 2027**

Showcasing Best Practice

We have shared various case studies through **Workforce Words**, in 2027 we will be sharing more of these in our new membership portal and looking at ways we can help our membership implement these ideas
